

26/36™ Fungicide

TURF FUNGICIDE

26/36™ Fungicide

EPA REGISTRATION NO. 432-1414-1001

THE FOLLOWING RECOMMENDATIONS ARE FOR USE AND DISTRIBUTION IN THE STATES WHERE 26/36 FUNGICIDE IS CURRENTLY REGISTERED.

26/36 Fungicide may be used for the control of **Pink Snow Mold** (*Microdochium nivale*) and **Gray Snow Mold** (*Typhula* spp.) on golf courses, sod farms and institutional areas where fine turf is grown.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. The following recommendations are made to permit the applications of this product on turf grass in accordance with FIFRA Section 2(ee)(2), which permits the use of pesticide products for control of pests not specifically cited on the label.

26/36 Fungicide may be used for the control of **Pink Snow Mold** (*Microdochium nivale*) and **Gray Snow Mold** (*Typhula* spp.) on golf courses, sod farms and institutional areas where fine turf is grown. Follow all existing label instructions and apply this product as a foliar spray at a rate of 4 fl.oz./1000 ft² in 0.5 to 2 gallons of water/1000 ft². Do not drench. For best results, follow local extension service recommendations for application timing.

26/36 Fungicide is compatible in tank mixes with chlorothalonil, PCNB and most other fungicides that are registered for the control of snow mold. When tank mixing, observe all directions, precautions and limitations on the labeling of all products used.

NOTE: For First Aid Statement and other Precautionary Statements, see label attached to the container. This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA. All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This bulletin must be in the possession of the user at the time of pesticide use.
