Q_ Are there any additional limitations?

A_ Yes the following apply.

- All turf applications have a minimum 14-day retreatment interval
- All ornamental applications are limited to a maximum single application rate of 1.8 lbs AI/Acre, and may not exceed 36 pounds AI/Acre annually as a foliar, or 300 lbs AI/Acre annually as a drench.

Q_ When will the new labels take effect in the marketplace?

A_ The Spectro and 26/36 Fungicide products available for sale are currently adjusted to the new use rates. The 3336 F, 3336 WP and 3336 G products will change as Cleary inventory is exhausted. All remaining Cleary inventory is required to change no later than March 2006.

Q_ Can the distributor sell and the end user continue to use the pre-mitigation product?

A_ Yes, Distributors may sell and End Users may continue to use any pre-mitigation labeled product in their possession until that supply is exhausted. These mandatory label changes and time deadlines are required only of Cleary.
