## *Spectro 90*<sup>TM</sup> **NutriGrow Magnum**<sup>TM</sup>

### Fall Over Seeding Recommendations

Cleary's **Spectro 90** and NutriGrow **Magnum** products have been used in an establishment and disease control program for the fall over seeding of cool season grasses. These treatments provide the nutritional boost and disease control necessary for germination and the establishment of a uniform turf cover.

#### General Instructions:

1. Apply products as a tank mix where indicated.
2. Apply as a full coverage foliar spray (88 GPA recommended)
3. Apply when air or upper soil temperatures are above 55°F.

#### Step 1: At Seeding

**Spectro 90 @ 4 oz.**

#### Step 2: Day 14

**NutriGrow Magnum @ 3 fl.oz.**

#### Step 3: Day 28

**NutriGrow Magnum @ 3 fl.oz.**

#### Total Program Requirements:

- ✓ **Spectro 90**                      **11 pounds/Acre**
- ✓ **NutriGrow Magnum**            **2 gallons/Acre**

#### Total Program Nutrition (lbs. NPK per 1000 ft<sup>2</sup>):

- ✓ **.013 lbs N**
- ✓ **.252 lbs. P<sub>2</sub>O<sub>5</sub>**
- ✓ **.010 lbs. K**

#### Program Benefits

- ✓ **Better Stand Germination**
- ✓ **Improved Grow In Time**
- ✓ **Enhanced Plant Health and Natural Defense**
- ✓ **Compatible w/ Disease Management Programs**
- ✓ **Effective Against Foliar and Root Pathogens such as Curvularia and Rhizoctonia**
