

3336[®] G Fungicide

FEATURES*	ADVANTAGES	BENEFITS
Broad Spectrum Disease control: > 20 species of fungi that cause diseases of cool and warm season turfgrass including: dollar spot, brown patch, anthracnose, summer patch and gray leaf spot (see label for complete list).	<ul style="list-style-type: none"> • Broader spectrum label than most turf fungicides. • Has both preventive and curative activity. 	Can be used for prevention and control of a large number of turfgrass diseases, many of which occur simultaneously.
For use on: cool and warm season turfgrass (e.g. bentgrass, bluegrass, bermuda, fescue, ryegrass, St. Augustine, Zoysia or their mixtures).	Not phytotoxic to the aforementioned grasses when used in accordance with the label.	Confidence when using this product on multiple grasses.
Use sites: all fine turf such as commercial, residential and public (e.g. home lawns, parks, athletic fields, schools and day care centers) and golf courses (greens, tees, fairways and aprons).	Broader spectrum of labeled use sites than many turf fungicides.	<ul style="list-style-type: none"> • Flexibility of use. • Can be professionally applied to all fine turf.
Active Ingredient: Thiophanate Methyl Granular Formulation	<ul style="list-style-type: none"> • No mixing or spraying required. • Can be applied with a spreader when using heavy spray equipment is not practical 	<ul style="list-style-type: none"> • Less labor intensive than spraying. • Improved product performance over generics.
Systemic Mode of Action	Upward movement through the plant.	Greater protection of untreated plant parts.
Signal Word: Caution	Lower risk profile than other broad-spectrum fungicides that carry the signal word 'Warning'.	Lower risk to handlers and plant materials than some other products in the market place.
Resistance Management Information: FRAC Group 1 (BENZIMIDAZOLE)	Thiophanate methyl is the only active ingredient in the turf market in FRAC Group 1.	Gives end-users a unique mode of action to incorporate into resistance management programs.
Available in 30 lb. And 15 lb. packages	More product size than other similar products.	Choose the size that's right for your needs.
Cleary's 3336 has been marketed for over 30 years	A long record of broad spectrum disease control without phytotoxicity.	A record of performance you can trust.

* Always read and follow all label instructions carefully.
